swagger on overdose
strike a pose
excuse me if i impose
ain't the same thing so i had to flow
got that base like supersonic
word on the street
said people on it
new cherlise, dj get on it
check my swag i am dressed to kill
pumped on sex apeal
she is so nervous when i'm rolling up

i got that good, that good so good that he coming right
back
i pick it up and throw like that
i bet your girlfriend can't do it like that
i got that good, that good so good that he coming right
back
i bet your girlfriend can't do it like that
i got that you should take a photo

i am so incredible he thinks i'm eatable
they say they like my confidence, but baby that's
common sense
you already know it so freak you can out it in a photo

check my swag i am dressed to kill
pumped on sex apeal
she is so nervous when i'm rolling up

i got that good, that good so good that he coming right
back
i pick it up and throw like that
i bet your girlfriend can't do it like that
i got that good, that good so good that he coming right
back

i bet your girlfriend can't do it like that
i got that you should take a photo
