Is fada mo shu/ile ort

thug me/ isteach duit

tusa mo mhian

tusa mo mhian

(my eyes long for you

I gave in you are my desire)

No hearts hangs on distant water

What enchangment lies in this world

I wander westward my hearts desire

With seas alive

Shadow me under the mountains of time

Guide me to the endless paths

No tears fall on stony highways

That skyline splendour lights my life

We wander westward my heart's desire

With seas of light

Shadow us under the mountains of time

Guide us to endless paths
