*Message on the net
Sister queen is loving you
Message on the web
Cyber queen is missing you

From the stars
I can see woomies
My E mail
Is full of zippies
Always lost in the dark
I'm surfing every night
I want you back
And standing in the light

*Repeat

Deep in the Galaxy
I'm waiting for you
You were nice and sexy
I didn't forget you
After a century
I'm searching on my screen
Deep in my memory
I'm hearing this melody
