ALL THINGS COME TO PASS

All things come to pass

History, wash over me

Will you look inside

Will you know the truth

Will you find the place

Will you need the proof

Will you pray for me

Will you call my name

Will you understand

Watch this come to pass

All things come to pass

History, wash over me

Will you look inside

Will you know the truth

Will you find the place

Will you need the proof

Will you pray for me

Will you call my name

Will you understand

Watch this come to pass

All things come to pass

History, wash over me

History, wash over me
