Alright, got some new trip for you here
Come and take a trip with us a crimson ship we'll check
out the system
We're riding high on oversights and nothing now we
got an addiction
To these rhythms

Stop and burn in hell screamin' ??? 'cause we're just beginning
To make the night a reckless space we can always keep ourselves spinning
Spinning

You know you wanna take a ride Don't you wanna come along Down to the other side ???????????????????

I'm high all the time

??? we'll have the night and ??? vision
We'll hold the wheel once because ??? what you need
What you want

Well I believe I can see the truth ahead explodes like a new star And we're reeling ??? supernova tractor beams pull us in and get what we need What we want

You know you wanna take a ride Don't you wanna come along Down to the other side

Yeah, so you'd better hold on You'd better hold on (x2)

???????????????????????????????

Fire of desire we got it burning higher Yeah we got it headed just right And we got a sound yeah we can get down to the guru All through the night

All through the night
