Yeah I been with you before
Shall we call it our private treasure in the rumor den
While we get around signs of pleasure and indulge in
sins

Then I lay you down like this

Going out to a bar in my car where we never been
When we spot it I'll connect us in the rumor den

Then I lay you down like this
In the rumor den

Yeah I been with you before
And I'll be with you again
I said

Yeah I been with you before
And I'll be with you again
In the rumor den
