"Our Heartbeat"

Visit "[Our Heartbeat](#)" on MotoLyrics.com

Your words are brighter than the sky
No matter what you say
Your eyes light up the room
When you wake up every day
I've seen your face a million times before
And I haven't seen it all
You're always there to help me
To catch me when I fall

Don't you know, won't you understand
That every second counts even when you haven't
planned it
Oh so many times I tell you how I feel
I want you to believe that our love can be real
Dreams flood the room whenever your around
Feel the warm wind surround you and hear the rushing
sound
I think about you every day and every single night
It all comes together
Everything is right

Supposedly our hearts are young and don't know what
to do
The clouds unveil our differences whenever I'm with
you
And though I might as well stay blinded by
The things that people say
I'll just ignore the distance even if you're far away

Nothing in the world could ever make us part
I'll never let you go, you're always in my heart
It seems the planets moved and the galaxies unfurled
Maybe that could be the cause of our imaginary world
When you look into my eyes, you can see the real me
I can't hide when I'm around you, you know everywhere
I'd be
One day we can be together, never mind what others
say
I'll be waiting for you darling, looking for you every day

Today's the start of the rest of our lives

Look to the stars and be glad you're alive
Our hearts resounding, flowing into the night
Just to know you're there lets me know
I'm gonna be alright

Remember when we vowed we'd never leave each
other's minds
The notes from songs that we composed are finally
combined
You can hear the music come alive and whisper in your
ear
The air is filled with happiness, so listen and you'll hear
our heartbeat
