1... 2... 3... 4

We play the bars most every night
Trying to make them feel alright
The crowd roars when we get up on the stage
You know that we are here to stay
As you dance the night away
Having a good time at our show

Playing hard up on the stage
Coming at you like a twelve gauge
Watch us now coz tomorrow we're gone
Head of the pack always on the run

We are country trash
We are country trash
Call us country trash
Play our music the way we feel

We rock the stage for hours and hours
Leave you wanting more and more
When we're headed for the back door
One last time before we go
I hope you all enjoyed the show
We're off to rock the next town

Riding out on our tour bus
Move ahead you can't stop us
Watch us now coz tomorrow we're gone
Head of the pack always on the run

We are country trash
We are country trash
Call us country trash
Play our music the way we feel
(2x)
