I'm out on the wire
Tell you that my heart's on fire
Yeah, you dig it

It's been a long time in the rain
A long, long time
And it felt insane to me
Being out there, alone

Time is not a healer but I'm back here
Standing at your door
Take a good look
I'm not the man I used to be before

I look inside, lock the world out
I fall for you and there is no doubt
I hear my voice and there is no lie
It tells me over and over, there is

No other one who compares to you
No other one can do the things to me
That make me see
(2x)
No one, yeah, no one compares to you

Don't you leave me all alone
Don't burn your bridges if you can
It's been an awful time to walk alone
The Solitary man

I look inside, lock the world out
I fall for you and there is no doubt
I hear my voice and there is no lie
It tells me over and over, there is

No other one who compares to you
No other one can do the things to me
That make me see
(2x)
