### "Joking Apart"

Joking apart - when you're gonna do what you say  
Don't you see things get worse everyday  
Joking apart - do you got an idea  
To save this world instead of your career

Chorus

Don't you see you're deeply in disgrace  
If only you could feel their hate like a fist in your face

Joking apart - what do you do in government  
Talking for hours 'bout what you intend  
Joking apart - you're still rocking your nuts  
When will you ever lift your butts
