She on that full moon, night crawler,
Blood stain on my collar (uh, uh)
She's a man eater (uh)

Nails scratching on my back,
no escaping her attack (uh, uh)
She's a man eater, eater.

Like a stalker, with a knife
Cold like vodka on the ice
Spiked heels, neon lights
turn your back and that supersize
Man eater, she's a man eater, damn.

I don't know if I'll ever make it out alive (alive).
(I don't know if I'll ever make it out alive.)
I was a fool to think that I'd be alright, tonight.
She's a man eater (hey) and I can't beat her (oh)
'Cause I've had a few drinks and I can't see her (hey,
oh)
I don't know if I'll ever make it out alive (tonight).
She's a man eater, man, I don't need to feed the man
eater
(yeah, yeah)

Shit on that lovey dove, cuddle bug, baby wanna cut
me up
She's a man eater
She don't wanna talk it out, she's all about that chew
me up and spit me out shit
She's a man eater, eater.
One more shot and I'm blacking out
Don't know what she talkin' 'bout
Don't wanna wake up at a house
Butt naked, ass out.
Damn, musta passed out.
Damn, musta passed out.

I don't know if I'll ever make it out alive (alive).

She's a man eater, man, I don't need to feed the man
eater.

She up in the club, like a DJ.
Scratchin' me up, instant replay.
Backin' me up, in the corner,
and I want her, but I know I'm gon' regret it in the
morning.
