Sha la la [x4]
Sha la la [x4]
(Girl) Sha la la [x4]
(Girl) Sha la la [x2]
(Girl)

Ayo Cisco
Let's take 'em on a trip,
Like we had a party and put shrooms in the dip
Now I'm tripping
And my girl won't listen
When I tell her that I love her and
I really really miss her
Let's do it
Like we never did before
L-L-L-L-Let's just lose control
I know you know what I know
L-L-L-L-Let's just lose control

I've been drinking but I feel fine
I've been thinking, you should be mine
For the weekend or a long time
Baby you could, you could be my girl
You could be my girl
You could be my girl
And I could be your man (I could be your man)
(You could be my)

You make my heartbeat stop like a beatbox
I try to pump it back up like some Reeboks
If love is a drug I need a detox
Cause you get me higher than the treetops
But I can see it all from here
Got my head up in the clouds but it's all so clear
Here my dear, take a look in the mirror
You're lookin' at the reason I'm a killer this year

I've been drinking but I feel fine
I've been thinking, you should be mine
For the weekend or a long time
Baby you could, you could be my girl

You could be my girl
You could be my girl
And I could be your man (I could be your man)
(You could be my)

Will you be my seÑ±orita
Real drunk love margarita
Take a long walk by the seaside
Working real hard for you to be my
You could be sun ray on a summer day
You could be the sea spray, take my breath away
You could be everything, girl, everything
And I could be your everything, girl, everything
(everything)

I've been drinking but I feel fine
I've been thinking, you should be mine
For the weekend or a long time
Baby you could, you could be my girl
You could be my girl
You could be my girl
And I could be your man (I could be your man)
(You could be my)

Guitar (you could be my)
New car (you could be my)
Big house (you could be my)
Shining star (you could be my)
(?) (you could be my)
(?) (you could be my)
Red wine (you could be my)
California sunset
Let's lose control
