In nineteen thirty six  
At the black forest  
Near Freiburg  
A crashed saucer was found

They found one being alive  
A being from the stars  
Hitler and him made a pact  
Wich gave they high tech

Black forest  
Covenant  
An alien race  
Made a pact with the fuhrer

Black forest  
Covenant  
This explains a lot  
How they were helped

They got advanced  
Fifty years of science  
Got new roads to do old stuff

They built their own discs  
Called Haunebus  
Had they more time  
The world would be different

In the dark of night  
Lives were at stake  
Prisoners of war  
Could be their coin of exchange

Ahead of their time  
In years they became  
They only lost  
Because the world united against them.

Black forest  
Covenant

An alien race  
Made a pact with the fuhrer

Black forest  
Covenant  
This explains a lot  
How they were helped
