"Everyone Knows Everyone"

Visit "[Everyone Knows Everyone](#)" on MotoLyrics.com

Just living the way I live
The faces in the crowd
It all just makes me stop to think
And this is what I found

Everyone knows everyone
Everyone knows what everyone does
It's cloudy now but that's okay
Sitting around here all day

See I've got this friend
Who just complains about getting out
So I'm gonna stop my stuff and quit my band
And move out and start anyhow

Cause everyone knows everyone
Everyone knows what everyone does
It's raining now and I can't wait
To get out of here someday

There's no escaping
There's nothing to escape
The no good reason
I think I'm gonna stay

Cause everyone knows everyone
Everyone knows what everyone does
It's sunny out and that's okay
Running around here all day
