You have a tender face
But your smile is shurelly fake
Your eyes inspire passion
But you have no compassion]

You have no sense of judgement
Good people you like to torment
Whom have a nice car can take you to bed
One day they'll see what you really are...

Mean woman
Mean Woman
You fool all, but not me
You have no heart, are you a machine?
Mean woman
Mean Woman
You fool all, but not me
You have no heart, are you a machine?

I tried soo hard to understand you...
Heaven and hell knows how I tried.
You end up your days sad and lonely
No one can change the way you are...

Mean woman
Mean Woman
You fool all, but not me
You have no heart, are you a machine?
Mean woman
Mean Woman
You fool all, but not me
You have no heart, are you a machine?
