The military industrial
ET complex
And some alien races
Signed a treaty
Mainly with the country
Of United States
What they gained
In return of this?

The Short Grays abduct civilians
And make experiments
They monitor humans
Through implants on the body
The Tall Grays or Whites
Are the diplomats
They're creating a
Hybrid human-gray race

Chorus
Military Industrial
ET Complex
What will be of mankind
Hope they don't sell us
Military Industrial
ET Complex
What will be of mankind
Hope we have a future

The indigenous reptilians
Control media and corporations
The Orions
Infiltrate in institutions
The Anunnaki and Draconians
Compete to rule mankind
Inspire fundamentalism
And violence and hate
