

## Skull & Bones

### "No False Metal"

On the Rise and rising out together  
I'm calling out our forces multiply  
I can see there's nothing else to live for  
The true must keep the spirit alive

NO FALSE METAL  
Get away from me  
NO FALSE METAL  
I've got everything I need  
NO FALSE METAL  
Get the fuck away from me  
NO FALSE METAL  
Cause I'd love to see you bleed

Other Eyes, come to share our glory  
Leave em all, they'll never understand  
I'm alive, and I will live forever  
The True must keep the spirit alive
