The Dows are a small subrace of Alien Greys
That are responsible for many abductions and
detentions.
They possess very little emotional development,
But have very strong telepathic powers.
These powers are often used to deceive and conceal
Their true motives and objectives to stay here
They are from Zeta Reticuli two
From the star called M two.

Their home sun had burned out and their planet
destroyed
Without a soul in hybrid bodies, they must steal energy.
They strip off energy layers of their abductee souls
This energy is then "fed" to infant hybrids to
Sustain their life
They were altered genetically they couldn't
Reproduce,
Ensuring they wouldn't rise up
Against their captors
They abuse the use of power only in service to
Themselves
They would like to be free but instead
Become wanderers

Chorus
The Dows are a small faction
Of the grey aliens
They are ruled by the Orion group
Genetically altered through generations,
They became slaves and pirates.
The dows are a small faction
Of the grey aliens
They are ruled by the Orion group
Genetically altered through generations,
They became slaves and pirates.

The dows and the orions have left behind everywhere
they went
Destruction and slavery
They don't care about you they are for

their own survival
Wash away your compassion focus and fight
stay very sharp
They are very dangerous to human race
on Earth
Let me tell how they operate they choose a
World in development
Then make contact with the strong nation give
technology
and sign a treaty
Giving their permission to study life forms but they
keep
their hidden agenda
Then they slowly control our governments rule the
Mob and become our leaders
