Wake up, the time has come  
You need to do something  
Life can't just pass by,  
Start to act right now, (don't leave for tomorrow?)  
Cause tomorrow you may Die

You wake up early to work,  
For someone whom explore you,  
Selling your precious time,  
Making you forget,

Good things in life  
Hasn't a price,  
A hug from friend,  
A smile from your lover,

Don't forget your family,  
They love you for what you are,  
They don't care about your clothes or your car  
I just saying, just stop by,  
Measure what really cares,  
Value what's important, Â no matter what costs

Don't go through life just watching days passing by,  
Make worth the suffering and pain you got to get here,  
Go for your dreams, don't let your spirit fade away,  
And help make the world a better place from today.

Let's watch less tv, go read a book now,  
Let's say that you love her, Â or one can say before,  
Let's clean your home, give away some old stuff,  
Don't leave for tomorrow what you can do today

Let's quit smoke now, you will live longer,  
Let's start that now, you will be healthier  
Help someone whom in trouble, get good karma  
Don't leave for tomorrow what you can do today

Don't go through life just watching days passing by,  
Make worth the suffering and pain you got to get here,  
Go for your dreams, don't let your spirit fade away,

And help make the world a better place from today.
