When I was 14 years old I remember seeing Edo G
On yo MTV raps
And he was the first dude really rappin on that level for
Boston
And you know that made me think that I could do it

Years later you know I met Edo and we would build in
And we did a joint then we ended up
You know making special teams together
You know when Edo put me on like that that was dope
I was looking Edo's example
I wanted to be given back to my city the same way I
always did

Back in '05 I can tell we fit
Hella quick, ignorant, intelligent
Speaking intolerant and relevant
Still relevant
You can tell a billionaire but you can't tell me shit
Spit it for days, split it 3 ways
Blaze haze real shit homie get it appraised
F-in pays , went on separate ways to attack riches
Edo G and Slaine now we back bitches
Let me remind you 3 stars align to
Tell the truth then lie to
Fix you like high cool
Shit you been tied too
High income, but low IQ
Foul rappers, ribbid, talk it I live it
Teach politics , civics
Stand still and mimic
See I'm a travelling man dog
I always move my pivid
