Like love on the run

Like love on the run

Like love on the run there will be tomorrow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on  
The sound of the drum keeps my soul depending  
each day and each night and its never ending  
Together we're dancing all night long  
together we're dancing on and on

Like love on the run there will be tomorrow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on  
The sound of the drum keeps my soul depending  
each day and each night and its never ending  
Together we're dancing all night long  
together we're dancing on and on

Like love on the run there will be tomorrow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on  
The sound of the drum keeps my soul depending  
each day and each night and its never ending  
Together we're dancing all night long  
together we're dancing on and on

Like love on the run there will be tomorrow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on

If you could look into the sun again,  
cause I believe now and then...

On the run (6x)

Like love on the run there will be tommorow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on  
The sound of the drum keeps my soul depending  
each day and each night and its never ending  
Together we're dancing all night long  
together we're dancing on
