I see you  
(I feel you there)  
I'll take you  
(Anywhere)  
Make it  
(What you want)  
I got it  
(You like to flaunt)

Let's strip down,  
Show each other our stab wounds  
Seven pounds  
And you'll get my eyes too  
Make our rounds  
To a series of empty rooms  
Uh-huh, I swear  
You'll get yours too

We gonna have a ball  
But we ain't got no need for chains  
We gonna roll dem bones  
And meet you at the blood lust bank  
And though it's plain to see  
You're gonna break my knees  
With your shuga cane

Come on  
(Play one more)  
I'll be your  
(Yarn folk lore)  
Swaddled  
(Rags with care)  
I got some  
(Change to spare)

Let's strip down,  
Show each other our stab wounds  
Seven pounds  
And you'll get my eyes too  
Make our rounds  
To a series of empty rooms

Uh-huh, I swear  
You'll get yours too

We gonna have a ball  
But we ain't got no need for chains  
We gonna roll dem bones  
And meet you at the blood lust bank  
And though it's plain to see  
You're gonna break my knees  
With your shuga cane

We gonna have a ball  
But we ain't got no need for chains  
We gonna roll dem bones  
And meet you at the blood lust bank  
And though it's strange to see  
You're gonna break my knees

And yeah it's strange to see  
You're gonna break my knees  
With your shuga cane.
