"Mr. Negative"

Visit "[Mr. Negative](#)" on MotoLyrics.com

I say it loud, nothing makes me proud
Not a single one of all the things I've done
Call me a failing man, well I don't understand how to
play my part
And call me a troubled man but help me understand
how too find heart

Don't steal my soul mister negative, don't steal my soul
Don't steal my soul mister negative, don't steal my soul

My hands were never strong, my words were often
wrong
So many times I cried, but at least I've tried
Call my a failing man, well I don't understand how too
play my part
And call me a troubled man, but help me understand
how too find my heart

Don't steal my soul mister negative, don't steal my soul
Don't steal my soul mister negative, don't steal my soul

-Instrumental Break-

Call me a failing man, well I don't understand how too
play my part
And call me troubled man but help me understand how
too fing my heart

Don't steal my soul mister negative, don't steal my soul
Don't steal my soul mister negative, don't steal my soul
