You can move a mountain
And you can stop the rain
You can calm the trouble waters
You can path the ocean
And you can soar and fly
You can walk upon the sea

BRIDGE

But somehow
Your faith became so cold
And you get tormented by the fear right in you
And enslaved to the creation
But you can holler help now oh and say
Come and set me free Lord to rule again
-Set me-

CHORUS

You can stop the raging wind
You can dry the sea
You can do the impossible
You can save a soul
You can still the sun
You can do all things through Christ
