Hold me down, im gonna fall straight to heaven
hold me down dont ever let go
ive been around you know i cant stay forever
and when i leave i want you to know

when im finally gone im gonna be gone without a trace
theres alot of good times weve had before were done
and on top of this list of things before i leave this place
you are my number 1
yes you are my number 1

yes you can tell me lies you know that id still believe
you(say wha)
stay right here dont move from that spot
i cant go you know im afraid to leave you
and dont you know your all that ive got

im afraid if you go you might disappear behind the
mist
and id rather be hung from a tree or shot by a gun
and of all these things that matter upon my list
you are my number one
yes you are my number one

you are my number one(say so)
tryin to make it clear(good gosh)
tryin to let you know that when your afraid im gonna be
there

(jamaican singer)

when im finally gone im gonna be gone without a trace
theres alot of good times weve had before were done
and and and on top of this list before i leave this place
you are my number one
you are my number one
you are my number one
you are my number one
