Lead the way, without a leash and outside a cage  
Of very few things I'm afraid save leaving my loves  
without my strength  
And they'll say, that they'll be safe under my control  
Won't hesitate to leave me my role  
And even one day I will fold  
Hope I never get old

And I stand to defend my pride  
Cause I'm the one that's keeping em safe at night  
All burdens held are mine  
I carry them on my shoulders all the time  
And it feels like nothing  
And it feels like nothing

You know I'll never see the day that I will go unsatisfied  
There's no hunger greater than mine  
No bigger mane in all the tribe  
Never question my drive

And I stand to defend my pride  
Cause I'm the one that's keeping 'em safe at night  
All burdens held are mine  
I carry them on my shoulders all the time  
And I stand to defend my pride  
Cause I'm the one that's keeping 'em safe at night  
All burdens held are mine  
I carry them on my shoulders all the time  
And it feels like nothing  
And it feels like nothing
