My friend Jack eats sugar lumps  
My friend Jack eats sugar lumps  
Sugar man hasn't got a care

He's been travelling everywhere  
Been on a voyage across an ocean  
Heard the sweet sound of wheels in motion  
He's seen the hawk fly high  
To hail the setting sun

My friend Jack eats sugar lumps  
My friend Jack eats sugar lumps  
Sugar man hasn't got a care

He's been travelling everywhere  
He's seen the people in the city  
And the bright lights look awful pretty  
He's followed dusty tracks into eternity

Eating sugar cane in Cuba  
Tried to grow it in Japan  
On the West Coast he's real famous  
Kids all call him sugar man

My friend Jack eats sugar lumps  
My friend Jack eats sugar lumps  
Sugar man hasn't got a care

He's been travelling everywhere  
Been on a voyage across an ocean  
Heard the sweet sound of wheels in motion  
He's seen the hawk fly high  
To hail the setting sun

My friend Jack eats sugar lumps  
My friend Jack eats sugar lumps  
Sugar man hasn't got a care

He's been travelling everywhere
