[Chorus]

I know how it feels  
You've been hurt so bad  
I know how it feels  
You've been hurt so bad

\*talking over chorus\*

Are you ok?  
I want you to know that you can talk to me about  
anything, anytime  
I couldn't help but notice that something was wrong  
And by the look in your eyes, it's no surprise, it can only  
be one thing

Don't think I know what I'd do, it hurt before just like you  
Even the best get depressed, still loneliest loneliness  
Got so much on my chest, that I can't rest  
And I'm sleepless and I keep this a secret  
Only the girl I wanna be with doesn't see it, can't  
believe it  
Doesn't need this so she's leaving, I'm the reason  
I still love her for all seasons, I'm in pieces  
Turn my frown upside down so no one sees this, I mean  
this

[Chorus]

\*talking over chorus\*

I know how it feels  
But there's really nothing you can do  
There's someone for everyone  
And maybe he's just not the one for you

Beware of the danger at the fork in love's road  
Sick in bed feeling cold and alone, please come back  
home  
Sometimes I feel I should just let her go  
If she comes back to me she's meant for me  
Will she love someone instead of me  
The intensity is killing me  
You don't want this misery

How will it be, is this the way it feels to be destroyed  
That's what I did to her, that's what she did to me  
I'm thinking of her, and I'm hoping that she's missing  
me  
You feeling me

[Chorus]

\*talking over chorus\*

I know, I know  
Every smiling face ain't a happy one  
And everybody is somebody's fool  
And you're no exception to the rule  
I know

[Bridge]

This is real  
Give me a hand  
Baby, baby, baby  
And I'll make you understand  
That baby this is so real

\*talking over bridge\*

Staying up late at night  
Play my records till I just don't wanna hear them  
anymore  
Reminiscing on all of the times we had, you know

Memories of long ago, love letters let her know  
Words of love so meaningful, I just can't see her go  
It's gonna take a miracle, torture and sadness  
Paired when I'm lonely drives me insane, I wish things  
were the same  
She doesn't know how bad it kills me inside  
Hide the tears behind my eyes, won't show through my  
pride  
With a touch that warms me through and through  
I know how it feels, I know what you're going through  
There's nothing you can do, I feel for you, I truly do

[Chorus]

\*talking over chorus\*

Cuz I know, I know  
I know, I know  
Can't sleep at night  
Got no appetite  
But everything's gonna be alright  
I know
