You know ever since you've been gone
I find myself unable to sleep at night
To some people it's just another day
But the Lord knows down inside, I just don't feel right

Love gets a hold on me, think I'm about to fall baby
But I can't let you see all the things you're doing to me
Remember when you told me how you wanted to be
free, and you left me
What about me and all of my pain, times I thought I was
going insane
Calling your name, you're no where around, no where
to be found
Nobody cared, nobody was there it was just me sad
and lonely, broken homey
I smile for my friends and cry later for you just like the
oldie told me
Remember how you treated me, you said you never
needed me
Spent all your time deceiving me, why couldn't you just
believe in me
Now your en mis suenos y pesadillas
And I can't wake up from this state and I can't take
heartbreak again
What would happen if I took you in, I would lose and
you would win again
You want your cake and eat it too, what would happen if
I cheated you
Gee I can only imagine all the things that I would be
I belonged to you but you never belonged to me, no
soy de ti

[Chorus]

Your love's got a hold on me
No matter what I do I just can't seem to break free
All I know is I want you right here next to me
Baby tell me is it real of fantasy
I said your love

Come a little closer, look at me, what do you see
The tracks of my tears because of you and wasted

years

After all the times you lied to me, all the fake tears you
cried for me

Now you wanna try to be, something that you denied to
be

Reality didn't live up to my dream, I never thought that
you'd leave me

Torture and sadness these things you left me, paired
when I'm lonely

Drives me insane, I'll never be the same as before you
Girl I live for you, please say it isn't so

The one in love is always the last to know

Remember when you'd write that fool up in the pen

And asked me if I cared and I said of course I did but
you went and did it again

Said he was just a friend, but then it was someone you
went out to see

While I'm standing underneath the streetlamp
wondering who is the girl for me

I never knew that when you said "I love you" it was just
for a little while

When we get married have a big celebration

Send invitations to all our friends and relations

That's what I wanted, I wanted to make you my wife

But now I want you to stay out of my life

[Chorus]

Everytime I find another love and try to settle down
And build my castle to the sky, you come and tear it
down

I treated you like a queen, how come I didn't feel like a
king

I told you if you lose me, that you would be losing a
good thing

I'll always remember that day in September, cold as
December

Leaving behind a fool such as I teary eyed

I guess you had your mind made up, now you've got
your fools mixed up

Tore off our legs, throw them on the ground for me to
pick up

That's the night you laughed at me, threw your little
past at me

Never thought I'd see the day that you would see the
last of me

Fears of losing you kept me holding on, but I got strong
You never know what you got until it's gone

Quando te querÃa no me dicistes

Quando te fuiste me dejaste triste y te reÃaste de mi

Ain't it funny now you want me

V  te con su hombre yo v  date de mi
No so de ti

[Chorus]
