

## **Sick Of It All "Always War"**

Visit "[Always War](#)" on [MotoLyrics.com](https://MotoLyrics.com)

we're the one - we're the only  
we're the best - end of story  
fly the flag - feel the glory  
we'll avenge past injustices  
always

always war - god's with the righteous. always war  
always war - god's will would give them hell  
always war - god's stands beside us. always war  
always war - it's god's will - so give 'em hell

we're the blind - we're the nameless  
give some worth - to the aimless  
and always  
always war  
always war  
don't you want revenge  
always war  
don't you want your god given revenge?

we're the one - we're the only  
we're the best - end of story
