

Sick Of It All "Free Spirit"

Visit "[Free Spirit](#)" on MotoLyrics.com

We've taken too much for granted
The basis that some are denied
Some choose to ignore this right
While others would give up their lives

For the chance to voice their opinions
Through all of the torture and crime
Lies and deception won't change
The direction of will in its fight to survive

Freedom, not free, freedom
Freedom, not free, freedom

Even when kept in restraint
The spirit continues to thrive
Lies and deception won't change
The direction of will in its fight to survive

Figures of oppression
Breathing down our necks

Free spirit continues to thrive
Free spirit in the face of denial
This oppression, this depression
Answer it with indignation
Free spirit in the face of denial

Freedom, not free, freedom
Freedom, not free, freedom
