Personality, suffer and enjoy it  
civility, most annoying habit  
isn't what I want, can't be what I want  
eating at me, it's eating at me

Patience is a thorn in my side  
another thorn in my side  
feelings bottled up inside  
ready to suffer the considiration

Another test, I grit my teeth and stand it  
try to ignore the most annoying habits  
isn't who I am, can't be who I am

feel my decay, I feel my decay

Patience is a thorn in my side  
another thorn in my side  
feelings bottled up inside  
ready to suffer the consideration

Nice, nice  
patience is a fuckin' thorn in my side  
Nice, nice  
tolerance will stab at me  
but it's nice  
worn down, jerked around  
patience wears thin, painful stabbing  
Stabbing stabbing
