It's right you know it, can't you see
You're just fooling yourself?
It's here, reveal it, all the feelings
Just lead you to blow it

Something special
Is undeniably run of the mill

Who is accepted? Who to reject?
Who is neglected? Who can make the choice?
Who is admitted? Who is denied?
Who can discern with the human eye?

It's wrong, you know it
Your gut should be telling you why
Avoid it, discard it
Avoid it, put it aside, now

So who is accepted? Who to reject?
Who is neglected? Who can make the choice?
Who is admitted? Who is denied?
Who can discern, filled with human error?

Elusive answers stay just one step ahead
Useless effort always one step ahead
Think about it

The more you learn, the less you know
The more you learn, the less you know
You know

The more you look, the less you find
The more you look, the less you find
Who can say they're satisfied?
Who can say they've found the answers?

Elusive answers stay just one step ahead
