you're always screaming about unity  
being open minded and honesty  
what you might say will some people believe  
but i really doubt your sincerity

if we really want this deal to work out  
we all got to rise above  
we've got to stop these pretty arguments  
don't you think it's time to cut the shit out

you're always screaming about unity

being open minded and honesty  
if we really want it, we all got to try  
stop talkin' behind each other's backs  
and spreading a bunch of lies

i ain't saying i got a master plan  
or telling you to go out and hold each other's hands  
just saying that we're tired of hearing your shit  
if you don't mean what you say then don't say it
