In the blink of an eye
Time sneaks up from behind
Taking us all away
Beyond this world we've come to know
No matter the strength, it'll happen one day
Can't stop what comes
I'm gonna miss this place

(Chorus)
N' I wanna see the sun set
One last time
I wanna feel the rain drops
Fall from the sky
Wanna hear those fireworks
On the fourth of July
Wanna taste some of life
Before I die

Innocent faces all around
Afraid of being forgotten
Dreams lifted off the ground
Another mind enlightened
Look up as the stars
No better way of getting lost
Swept away by perfect moments
Hopelessly devoted

(Chorus)
N' I wanna see the sun set
One last time
I wanna feel the rain drops
Fall from the sky
Wanna hear those fireworks
On the fourth of July
Wanna taste some of life
Before I die

Gonna find paradise, magic too
Through the good and bad, never will I forget
New York City on Christmas Eve
Snowfall and presents underneath the tree

Summer nights, drunken party fights
Different from any other, most definitely a place to
remember

(Chorus)

N' I wanna see the sun set
One last time
I wanna feel the rain drops
Fall from the sky
Wanna hear those fireworks
On the fourth of July
Wanna taste some of life
Before I wanna see the sunset
One last time
I wanna feel the rain drops
Fall from the sky
Wanna hear those fireworks
On the fourth of July
Wanna taste some of life
Before I die

Just do, never wonder
Live it up, like no other
Watch the lightening and thunder
Imagine the undiscovered
In this place to remember
