I remember when we use to play
Outside in the cold
All day
Remember when we were younger
N' everything made sense
Had a roof to lie under
And food in our mouths
But now that we're older
N' we've matured
We're more bolder
Than we were before
Have you ever wanted to go back to the past?
Just to capture the moments n' make them last

(Chorus)
Now that we're older
We wish we were younger
But when we were younger
We wished we were older
Does that make sense?
Do you understand?
When we were younger
We wanted to live in the future
But now that we're older
We wanna relive the past
So what do you want to be?
If you had a choice
Would you wanna be younger or older?
