I go to school everyday
Not cause I want to
Its cause I have to
Teachers yellin' "sit up straight, take off your head
phones"
Oh well, when I get home
I'm googleing stars and searching for tunes
Does any one hear get what I'm saying?

(Chorus)
Can't you tell?
I'm just you're average teenager
Always lookin' for danger
N' I like putting things off till later
I dread makin' my bed
Just want to hang out with my friends
Cause I'm just you're average teenager

I like stayin' out all night
N' Gettin' into fights
Don't follow the trend
Be different then your friends
I good at gettin' my way
N' shoppin' all day
Don't be telling me what I should be doing

(Chorus)
Can't you tell?
I'm just you're average teenager
Always lookin' for danger
N' I like putting things off till later
I dread makin' my bed
Just want to hang out with my friends
Just give me a break
Cause I'm just you're average teenager
