"Night Time Party"

Schools out
Time to hangout
Gettin' ready for tonight
Take a shower
Then for an hour
Do your hair just right

(Chorus)
It's night time
There's gotta be a party somewhere
Trust me, I'll be there
Get out some beers
N' will cheer - for the night time party

We arrive at the party
Lookin' for those hotties
Chug a beer or two
To get in the party mood
Turn up the music
Or else I might just lose it

Not gunna hide
I feel that vibe
Pushing up against me
Now gunna regret
Anything tonight

(Chorus)
It's night time
There's gotta be a party somewhere
Trust me, I'll be there
Get out some beers
N' will cheer - for the night time party
