Each time I see you in the hall
I look at you, N' I say Hi
But you just walk right by
I wonder if you ever see me...
I wonder if you even care
That I'm alive

(Chorus)

I have only one wish in this world
N' it's for you to notice me! Baby
Can't you see, my love for you was meant to be
Everything around me started to make sense
Since I saw you
Why won't you notice me??
Should I change the color of my hair?
Or should I change the clothes that I wear?
Just tell me what it is to get you to notice me??
I just want you to notice me!
Notice me, please just notice me

You put a smile on my face
But, I don't have what it takes
For you to even know who I am
Boy, I'll have to make a plan
To make you understand
Who I am! yeah - yeah

(Chorus)

I have only one wish in this world
N' it's for you to notice me! Baby
Can't you see, my love for you was meant to be
Everything around me started to make sense
Since I saw you
Why won't you notice me??
Should I change the color of my hair?
Or should I change the clothes that I wear?
Just tell me what it is to get you to notice me??
I just want you to notice me!
Notice me, please just notice me
