You see that girl in the hall
With a tear runnin' down her face
You think to yourself 'Wow, she's a total freak'
But you never knew
She didn't really want to be cool -

(Chorus)

That girl always walks with her head lookin' down with a
frown
Have you ever seen a smile on her face?
I bet ya think she's just a disgrace
You laugh at that girl as she walks on by
N' you never hesitate - to discriminate her!
N' you wanna know how I know all this?
'Cause guess what! - I'm that girl

You say that girls got a lot of problems
She probably does
N' most of them are 'cause - of you
You don't know how just one word
Could shatter a girl!
Well you find out that girls in you next class
So you sit behind her just to laugh
The teacher doesn't do a thing
'Cause she thinks it's nothing
But deep down inside she's dying
She goes home N' starts crying
'Cause of how mean
Teenagers can be -

(Chorus)

That girl always walks with her head lookin' down with a
frown
Have you ever seen a smile on her face?
I bet ya think she's just a disgrace
You laugh at that girl as she walks on by
N' you never hesitate - to discriminate her!
N' you wanna know how I know all this?
'Cause guess what! - I'm that girl
