You want me to be the girl next door
But, What if I wanted to be more?
I want to love you just like
The girl loved the boy down the creek
Baby - I don't wanna be weak no more
I just want to adore
Everything about you

(Chorus)
I don't wanna be just the girl next door
I'm hopin' that you and I could be more
Come with me -
And we could be -
Together at last

All I ever wanted to do
Was just be with you
To be in your arms
And look into your eyes
Taste your lips one more time -
I hope you find
What you're looking for -

Do you understand?
I want you to be my man
Without even saying a word
I look into your eyes
N' to my surprise
I know what you were thinkin'

(Chorus)
I don't wanna be just the girl next door
I'm hopin' that you and I could be more
Come with me -
And we could be -
Together at last

I don't know just want it is about you
I just love your smile
N' for a while
You were the one on my mind

Almost all the time
Wish I could make you mine

Lets go tonight
Just you and me
We could be free
Staring at the moon light
It's so bright

(Chorus)
I don't wanna be just the girl next door
I'm hopin' that you and I could be more
Come with me -
And we could be -
Together at last

I want you and me
To be the center of attention
Baby I just want to mention
That I love you

(Chorus)
I don't wanna be just the girl next door
I'm hopin' that you and I could be more
Come with me -
And we could be -
Together at last

Now do you understand?
I want you to be my man
Baby I don't want to be the girl next door
No - oh - Not any more
