So lost in a space with no colours no hands  
Nothing but the light when they land  
They came from above with a message from you  
Sent from Venus with "Bye, I'm gone for good."

This small piece of paper and a vision I see  
Nor one or another I need  
What's wrong with my pride ,my courage, my style  
What's your reason to disappear from my life

Well, I could be loved but to you an enemy  
I could be an angel but you'd like the beast  
I could get down on my knees and be your little babe  
You'd go to Venus and I'm here to stay  
'cause I don't know the way (no I don't)

I'm left with a smell and her voice in my head  
All songs laying torn on the floor  
I seek thru the dark whether they'll come again  
Though stuck with thought I'll see them no more

My drawings in sand represent my alert  
Hoping they'll deflect up to her  
My smile is defending what inside is poor  
I'm not gonna stop looking for you

Well, I could be loved but to you an enemy  
I could be an angel but you'd like the beast  
I could get down on my knees and be your little babe  
You'd go to Venus and I'm here to stay  
'cause I don't know the way (no I don't)

Again an evening is here  
I see the place where you hide  
I'm losing my innocent face  
I'm going blind  
Reflections and feelings like everything's falling  
Everything breaks but I'll stand  
'cause I know that I can  
And I know that I can..
