Get to the party, now where is the keg?
If I stay sober I'd rather be dead
Now take my words as an example
Drink til' you die man it's so fucking simple
OH YEAH!
The beer isn't here man they ran out an hour ago
Hop in my Honda beer run we gotta go
What about the gas station right down the street
No Busch Light man that's fucking weak!
YEAHHHH
Open your brews when I kick down the door
Drink til' you puke, then ask for more
Shotgun your beer, face to the sky
Party hard and DRINK TIL YOU DIE!
