I turned blue just waiting for you
and I don't wanna wait around, wait around anymore.
Come on, yeah.

The streets are cool the kids are all
We're all here, and where are you?
You're sleeping in a
Come on yeah
Got to kick up the sheets
Get out the house
And get in the street

Do it in the road
Don't let them tell you
You make it your own
Come on, yeah

Hey, before the band's awake
Let's get the jump on everybody's day
We can plan out our escape
And still have time for coffee on the way
Come on, yeah.

Got to kick off the sheets
Get out the house
And get in the street

Do it in the road
Don't let them tell you
You make it your own
Come on, yeah

Come on
Come on
Yeah, yeah
