you came just when i thought that love was gone  
and now i feel that i have the strength to carry on  
you changed my world the minute they walked  
in the door oh oh oh oh oh you blew me away  
with the smile on your face and your love is  
burnin me up boy

i feel something deep inside got me burnin up  
i know our love is gonna be 100 degrees  
got me burnin up you looked my way when  
a few was a line got me burnin up i know  
our love is gonna be 100 degrees got me  
burnin up yeah

you walked in i didn't even know your name  
oh oh oh and i feel nothing will ever be the  
same you changed my world everyone in  
the room disappeared oh oh oh oh oh  
you blew me away with the smile on your face  
and your love is burnin me up boy

i feel something deep inside got me burnin up  
i know our love is gonna be 100 degrees  
got me burnin up you looked my way when  
a few was a line got me burnin up i know  
our love is gonna be 100 degrees got me  
burnin up yeah

when every friday everyone has gone let the  
fall down were still movin on let me walk your way  
you walk my way yehhhhi feel something deep inside  
got me burnin up  
i know our love is gonna be 100 degrees  
got me burnin up you looked my way when  
a few was a line got me burnin up i know  
our love is gonna be 100 degrees got me  
burnin up yeah
