"If Only"

Visit "[If Only](#)" on MotoLyrics.com

If only you can hear me
I'd let you know how I miss you so
Forgive me, I was blind to see
I was a fool to ever let you go
Believe in me I want you to know
That I have realised there's no one else I'd rather be
But then I know that you have found yourself somebody
new
Hope I could find you in another place and time
Proven it's true, I'm still in love with you
Every night I've been dreaming
About the time when you were mine
The memories I will be keeping
Oh, I was wrong to let a chance go by
So listen now I never will deny
That I have realised there's no one else I'd rather be
But then I know you have found yourself somebody
new
Hope I could find you in another place in time
Proven it's true, I'm still in love with you
If only you can hear me
I'd let you know oh how I miss you so
Believe in me I want you to know
That I have realised there's no one else I'd rather be
But then I know that you have found yourself somebody
knew
Hope I could find you in another place and time
Proven it's true, I'm still in love with you
