"Y More"

Yesterday I could have done some more
and today I might even fix it all
it's such a quiet and emotional dance in the rain but I
know
that disappear is something you do when I'm not at
home
it doesn't matter now as long as we can still hold each
other's hands

I see no gray but something is not ok
I see no blue though that's how the sky should look
about the supersonic pain that is inside of us we
complain
but what the hell
we aren't the last to be driven insane
it doesn't matter now
as long as we can still hold each other's hands on the
bedroom floor

Dead and dedicated
your love of fucking "God"
dumb and happy moron being superhero
never entertain him
he's like a lord of human act
y do you need more y do you need more
