I need you more than you know
And I just want
To hold onto you
Forever or just for tonight

Well I want you to know that
I've been thinking of you all this time
If you need me I'll be there for you
If you want me you can have me
And I want you to know that I'd do anything for you

'Cause I need you more than you know
And I just want
To hold onto you
Forever or just for tonight

It's sort of like my heart is beating fast and slow at the
same time
I call it love and you call me crazy
If I could have just one wish then
You would be with me tonight
Friends tell me that I'm hopeless
Give it up and just move on
And I know that they have never looked in your eyes

And I need you more than you know
And I just want
To hold on to you
Forever or just for tonight

Look at him get his hopes up
I'd hate to watch him fall
I hope he gets his wish tonight
Look at him get his hopes up

I need you more than you know
And I just want
To hold onto you
Forever or just for tonight
