Endless nights when we would lie awake and I would
hold you in my arms and we would count the stars.

That's when I told you I named this one for you then
you smiled at me and said it was ours.

and I swear to you.

And I will wait for to catch me if I fall even if I fall
forever.(if you call my name I'll be there for you) The
look in your eyes when the moonlight hits your face
and for one short moment everything feels right.

You are the only thing that keeps me going and I swear
you are my everything.

And I will wait for you to catch me if I fall even if I fall
forever.(if you call my name I'll be there for you.
