Open Highway, It's just me and this empty road ahead
Thinking of life, thinking of home
Our destination seems so far
I hope we never get there

Chorus:

It's times like these,
The little things
Capture this moment in time
Everyone's asleep
They're dreaming deep
This music it drives me farther

Cool night breeze,
The sky is clear
The moon shines light upon this road
Wyoming skyline
Mountains fly by
This time is ours
How I feel so blessed

(Chorus)
